Introducing our On-Farm Repair and Maintenance Service.

We are excited to offer our customers an on-farm repair and maintenance service. Although our products are constructed to last, sometimes wear and tear, and accidents resulting in damage may happen. Our on-farm team is well-equipped and available to assist with any necessary repairs, no matter the size.

At Padmans, we are dedicated to being the Farmers Friend, which is why we are extending our services to include on-farm health checks. Our team of skilled tradespeople is committed to delivering exceptional customer service, while also ensuring that your Padman products are irrigation-ready, saving you time and effort.
